TECHNOLOGY ACCELERATED SKIN CARE™

bt-micro® FUSION
SMOOTH SKIN SIMPLIFIED

Next generation personal ultrasonic technology

INNOVATING AN ICON

Bio-Therapeutic's ultrasonic technology has been the professional skin therapists' gold standard in handheld cleansing, exfoliation, extractions and product application for over a decade. Now, for the first time, this transformative technology is available in a personal edition for home use.

Delivering an industry leading 30,000 Hz of ultrasonic performance, the bt-micro fusion is built on decades of Bio-Therapeutic's research, and designed and assembled in our own facilities in Seattle, Washington to the same exceptional standards that have led our company to become the top choice of skin care professionals worldwide.

EXCEPTIONAL RESULTS AT EVERY STEP

The bt-micro fusion is a true multitasker, helping to deliver exceptional results at every step of your home care regimen with finely tuned ultrasonic performance optimized for three key stages.

- **EXFOL Mode** maximizes the cleansing and exfoliation steps, helping to gently remove dulling dead skin debris, excess oils and impurities for exceptionally clean skin.
- **CLEAR Mode** helps to loosen impacted oils and dead skin cells for exceptional at home extractions, helping to safely remove blackheads.
- **APPLY Mode** helps to deliver your serums and moisturizers to the skin, optimizing absorption.

QUALITY YOU CAN FEEL, SAFETY YOU CAN TRUST

Featuring a newly designed ergonomic, IP35 water resistant chassis and a long lasting battery for exceptional performance, we've made no compromises on the quality and function of the bt-micro fusion. This new personal edition also features the same medical grade stainless steel applicator used in our professional models for the ultimate in safety, durability and performance.

We are an FDA registered medical device manufacturer, we meet the rigorous regulatory quality standards of ISO 9001 and ISO 13485 and, like all of our equipment, the bt-micro fusion is CE certified for safety. In short, the bt-micro fusion quite simply represents the pinnacle of quality and performance in its class.

SIMPLICITY, SIMPLIFIED

Intuitive two button interface gives you complete control of three models and two power levels, while the LED indicators show your settings at a glance.

PORTABLE, PRACTICAL, PERSONAL

The bt-micro fusion arrives packaged in a handsome box with everything you need to get started.

- Magnetic charging cable, AC adapter, and included equipment stand means your handheld is always at the ready.
- Silicone applicator cover infused with Silver Ion.
- Protective fabric sleeve and Silver Ion infused silicone traveling case.
